TRUSHIELD YOUR EXTERIOR COLOUR GUIDE

Introducing TRUSHIELD

"Architecture starts when you carefully put two bricks together. There it begins."

- Ludwig Mies Van Der Rohe

Every concrete asset requires protection from the harsh environmental vagaries, whether it's a textured finish of a villa or a smooth facade of a mixed use complex. Applying a coat of paint on any concrete exterior or plastered surface is easy, but what is important is the quality of the exterior paint which needs to ensure that the surface withstands the harsh rays of the sun (potent Ultra-Violet rays) and the relentless dust particles of the desert storm. Oasis Trushield coatings have been designed to offer just the protection that your asset requires.

Available in different finishes and textures, Oasis Trushield coatings have been formulated to form a shield of protection from different types of climatic attacks that occur in the form of mould or algal growth, fading of colour because of poor UV resistance or just simply flaking off, after a period of time.

Oasis Trushield, apart from ensuring a trouble-free performance also provides a look and feel that can either merge seamlessly with the surroundings or standout as a true icon giving your asset the required individuality. And yes, our wide range of colours will leave you spoilt for choice.

Smooth Finishes

A premium acrylic, water-based exterior emulsion that is formulated to meet the challenging demands of protection against environmental vagaries, makes this coating a favorite for durable exterior application. Available in any colour that either merges or stands out as per the requirement of the customer.

- **Excellent Colour Retention**
- **Superior Resistance to Dirt Pick-up**
- **Anti-Carbonation Properties**
- **Crack Bridging Properties**
- **Superb Washability**

Oasis Trushield Smooth Emulsion is available in the above standard colours and white.
Over 5000 colours of your choice can be tinted on the Oasis Tinting System.

Heritage Finishes

An advanced, pure acrylic emulsion which imparts an antique/ancient effect on your exterior walls. It offers very good resistance to fungal attacks, covers undulations; thus ensuring a much longer life for the coating.
It is available in three textured finishes – Antique, Classique and Traditional.
